

## Keywords index

Barium ferrite	735	Neural networks	751
Beta titanium	717	Non-destructive testing	729
Composites	722	Optimization	751
Degradation	757	Oxidation	757
Dynamic recrystallization	717	Production planning and control	751
ECAP	709	Properties	729
Fiber content	729	Quality control	729
Glass/polyester composites	729	Retained austenite	743
High-energy ball milling	735	R-VSM	735
Industrial management and organisation	751	Superplasticity	717
Interfacial shear strength	722	Surface free energy	722
Materials	709-722	Surface treatment	722
Materials manufacturing and processing	743-757	TBC	757
Mechanical properties	709	Technological efficiency	751
Metallic alloys	743	Thermomechanical processing	743
Methodology of research, analysis and modelling	735	Thin&thick coatings	757
Microstructure	709	TRIP-aided steel	743
Nanomaterials	709	Ultrasonic wave velocity	729
		X-ray phase analysis	735
