

Keywords index

| | | | |
|---|----------|---|---------------|
| Aluminium bronze | 461 | Impact energy | 503 |
| Aluminum alloys | 453 | Knowledge representation | 479 |
| ANSYS | 495 | Machining | 499 |
| Bone plate | 495 | Magnesium alloys | 471 |
| Calculation | 483 | Materials | 461-475 |
| Casting defects | 479 | Materials manufacturing and processing | 453, 499, 503 |
| Ceramic particles | 475 | Mechanical properties | 467, 479 |
| Chemical machining | 499 | Metal matrix composites | 475 |
| Complex silicides of the iron | 461 | Metallic alloys | 461, 471 |
| Cracks | 479 | Method of the cone | 467 |
| Die-casting | 471 | Methodology of research, analysis and modelling | 495 |
| Electrical properties | 489 | Microstructure | 471 |
| Engineering polymers | 467 | Nontraditional machining | 499 |
| Etchants | 499 | Numerical techniques | 495 |
| Fe-B-C-O system | 483 | Phase equilibrium | 483 |
| Fracture toughness | 503 | Properties | 479-489 |
| FSW | 453 | Proximal tibial osteotomy | 495 |
| Galvanically silvered | 475 | Scanning Tunneling Microscopy (STM) | 489 |
| H13 tool steel | 503 | Silver matrix | 475 |
| Hardness | 467, 503 | Surface treatment | 489 |
| Heat treatment | 503 | TDA method | 461 |
| Highly Oriented Pyrolytic Graphite (HOPG) | 489 | The logic of plausible reasoning | 479 |
| Hot extrusion die | 503 | Welding | 453 |
