

Keywords index

Abductive network	57	Mechanical properties	5, 13, 29
Bainitic steel	5	Metal transfer	49
Brittle cracking	21	Metallic alloys	5, 13, 29
Cavitation erosion	21	Metallography	13
Closed die forging	57	Methodology of research, analysis and modelling	35
Computational material science	13	Preform design	57
Driving torque	35	Properties	21, 29
Feed drive system	35	Quantitative metallography	29
Finite element method	57	Retained austenite	5
Heat treatment	5	Rolling element	35
High speed camera	49	Sensing	49
Image analysis	21	Sensitivity analysis	45
Intermetallic alloys	21	Surface treatment	13, 39
Machine tool	35	Taguchi method	57
Materials	5,13	TRIP-effect	5
Materials manufacturing and processing	39	Weld bead geometry	45
Mathematical model	45	Welding	39, 49
		Welding process control	45
		Welding quality	45
