

Keywords index

Analytical model of the quality evaluation of the business administration	101	Nanomaterials	109
Armour	109	Palmqvist	87
Cemented carbides	87	Polymer nanocomposites	94
Cyclic torsion	77	Polymer processing	94
Damage mechanisms	77	Powder Injection Moulding	117
ECAP method	69	Powder metallurgy	87, 117
Engineering materials	94	Properties	77, 87
Feedstock	117	Quality indicator of organization	101
Materials	69	Quality management	101
Materials manufacturing and processing	94-117	SEM	77
Mechanical properties	69	Tool materials	117
Metallic alloys	69	Toughness	87
Metallography	109	Ultrasonic fatigue	77
Microstructure	69	Very high cycle regime	77
MMT	94	Welding	109
