

Keywords index

Carbon nanostructured materials	58	Multilayer coatings	53
Comfort	75	Nanomaterials	58
Computer simulation	68	Numerical techniques	68
Denture material	75	Precious metals	87
Education and research trends in materials science and engineering	87	Recycling of electronic waste	87
Electron microscopy	58	Soft tissue pain	75
Finite Element Method (FEM)	68, 75	STEM	58
Leaching	87	Stresses	68
Low-voltage electron microscopy	58	TEM diagnostics	53
Mastication force	75	Used mobile phone	87
Methodology of research, analysis and modelling	53-75	Wear mechanism	53
Microstructure	53
